## Vancouver / Whistler Olympics:

The 2010 Winter Olympic Games are being held in Vancouver and Whistler, BC from Friday February 12 until Sunday February 28, 2010, and the 2010 Paralympic Games will take place between March 12 and 21, 2010.

During the period of the Winter Games access by commercial vehicles to parts of Vancouver and Richmond and to the entire Village of Whistler will be restricted, and normal pick-up and delivery operations to the restricted areas will be significantly affected. ***This will be true for all commercial transportation vehicles.***

### Vancouver: February 1 – March 21, 2010

Shipment pick-up and deliveries to the downtown core of the city of Vancouver and parts of Richmond will be restricted to the hours of midnight through 6:00 AM. Between February 1 and March 21, 2010 there will be no commercial vehicle access of any kind to "venue" locations, and trucks will be restricted to designated "truck routes". Details can be found here: [Vancouver deliveries](#)

### Whistler: February 1 – 28, 2010

Access by commercial vehicles to the entire Village of Whistler will be restricted to the hours between 10:00 PM and 6:00 AM. After 6:00 AM no commercial vehicles will be allowed in or out of the Village. Truck sizes will be limited during this period – no tractor-trailer units will be permitted access to Whistler for the duration of the games. Additionally, the "vehicle standing time" for all deliveries will be limited to fifteen minutes, necessitating additional labour to unload and deliver larger shipments. More information can be found here: [Whistler deliveries](#)

### How does this affect you?

During the periods affected by the winter games it will be necessary to comply with all of these operational restrictions, which will mean that shipments to and from the restricted areas will be subject to fees for some of the exceptional services required. This may include services such as:

- After hours pick-up or delivery
- Use of power liftgate
- Additional labour
- Restriction on loading / unloading
